Culture for the Future

2-5 September 2025
Bali - Indonesia

C

Culture – Culture is a reflection of the values, traditions, and ways of life of a society as the basis of collective identity and the foundation of values in human development. This activity aims to strengthen the cultural identity of each country while encouraging the exchange of ideas and implementation in the preservation and development of culture.

H

Heritage – Cultural heritage is a collective memory that must be preserved, transformed and passed on from generation to generation. Understanding the protection of cultural heritage, both tangible (physical) and intangible (non-physical) through international collaboration. This activity aims to create global awareness about the importance of safeguarding cultural heritage as part of humanity's identity and history. In addition, the activity will also be a place for strategic discussions to answer how the preservation of cultural heritage can be done with a digital, participatory, and community-based approach.

A

Art – Art is a medium for expressing culture, heritage and creativity that reflects social dynamics and changing times. Art is an important medium in building intercultural dialog, celebrating diversity, and encouraging inclusive social transformation. Where each work of art can be a window to understanding perspectives that reflect values, norms and traditions. The event will feature various art forms, ranging from traditional art, performing arts, to visual arts.

N

Narrative – Cultural narratives are a series of stories, symbols, values and meanings that are shaped and passed down by a society to explain its identity, history and worldview. Narratives are not only in the form of texts, but also in the form of art, rituals, language, architecture, and daily habits that reflect how groups understand their origins, live their traditions, and determine future directions. Cultural narratives play an important role in building social solidarity, strengthening cultural roots in the midst of globalization, becoming a diplomatic tool to introduce the nation's values to the international world, and serving as a foundation in formulating strategies for heritage preservation, creative economic development, and character education.

D

Diplomacy – Diplomacy - Cultural diplomacy is a dynamic effort carried out by using cultural content for the benefit of unity, national unity, and foreign recognition and respect through cultural cooperation and exchange. Cultural diplomacy activities will be a medium to improve Indonesia's image as a cultural superpower, build networks and cooperation between countries through cultural diplomacy and formulate strategies and policies to promote cultural values.

I

Innovation – Innovation in culture and the arts is key to facing global challenges and responding to disruptive times. Innovation is not just about technology or digitization, but also new approaches to cultural management, education, and human development. Innovation in culture and arts can bridge the younger generation with cultural roots through digital platforms, artificial intelligence, and blockchain technology to preserve cultural heritage and encourage the growth of the creative economy. The activity became a discussion forum to collaborate between culture and arts with technology that can bring positive, inclusive, and sustainable impacts related to innovation.

Kecak Fire Dance

A performance like no other, the Kecak dance is a wondrous portrayal of Balinese culture. Utilising fire and tradition amid the gloriously vibrant backdrop of the sun going down, the performance can be enjoyed all over Bali in open spaces, where the true magnitude of this powerful dance comes to life.

Welcome Dinner CHANDI 2025

Rindik Bali

Rindik Bali is a traditional Balinese percussion instrument made of bamboo tubes, played with mallets to create melodic, rhythmic sounds.

Bali Spiritual Blessing

A Bali spiritual blessing, often a "melukat" ceremony, is a Balinese Hindu ritual for purification and cleansing of the body and soul.

Sasando

Sasando is a harp-like traditional music string instrument native to the Rote Island, East Nusa Tenggara Province, Indonesia. Sasando is a string instrument which has no chord.

Sasando has a unique shape. A bamboo tube serves as the frame of the instrument. Surrounding the tube are several wooden wedges where the strings are stretched from the top to the bottom. The stringed bamboo tube is surrounded by a bag-like fan of dried lontar or palmyra leaves. Sasando can have 28 or 56 strings.
